

Do not erode the cross-ownership ban.If you have any respect for democracy, you will realize that it differs from totalitarianism and fascism by allowing multiple perspectives to be voiced. The media has a responsibility to democracy to cover the news - the actual news - not the news that Rupert Murdoch chooses to make up.

Do NOT continue to erode our democracy by removing more regulations that were created to protect our democracy. Shame on you. You have a DUTY to enforce those regulations. Do not erode the cross-ownership ban.
